

PROFESSIONAL SUMMARY

Frontend Developer specializing in **React.js, JavaScript (ES6+), and modern UI frameworks**. Skilled in building **responsive, scalable, and high-performance applications** with **Redux Toolkit, Context API, and REST API integrations**. Experienced in **component-driven development, performance optimization, debugging, and accessibility compliance**. Strong background in **collaborative Git workflows, Agile methodologies, and cross-browser compatibility**.

SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6), Tailwind CSS, Material UI, Shadcn UI, HTML, CSS

State Management: Redux Toolkit, Context API

Backend: Node.js, Express.js, MongoDB

Tools & Build Systems: Git, GitHub, Webpack, Babel, NPM, Postman, Chrome DevTools, Debugging, Agile Development

Additional Skills: REST API Integration (JSON), Performance Optimization, Accessibility, Responsive UI/UX Development, Single Page Application(SPA)

TECHNICAL EXPERIENCE

Frontend Developer Intern

Apr 2024 - June 2024

Digital Guruji

Pitampura, Delhi

- Developed **responsive and interactive user interfaces** with HTML, CSS, and JavaScript, improving engagement by 25%.
- Converted **UI/UX designs into functional components**, reducing design-to-development time.
- Optimized page performance by **60%** using efficient JavaScript and clean code practices.
- Built an **image generation tool** supporting both 2D and 3D outputs with **JavaScript and Canvas API**.

PROJECTS

Blog App | MERN Stack | [\[GitHub\]](#) - [\[Live\]](#)

Tech Stack: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Tailwind CSS, Axios

- Developed a **full-stack blog application** with CRUD functionality using MERN stack.
- Developed **reusable React components** with props, state, and hooks for scalable UI updates.
- Implemented **Context API** for global state management.
- Integrated **RESTful APIs** using Axios for smooth data exchange between frontend and backend.
- Implemented **routing and navigation** with React Router DOM for seamless user experience.

Zapto-ecommerce| [\[GitHub\]](#) - [\[Live\]](#)

Tech Stack: React.js, Context API, Tailwind CSS, Clerk (Authentication), Axios, Fake Store API

- Built a **single-page responsive e-commerce web app** with cart and authentication.
- Integrated **Fake Store API** for dynamic products, categories, and details.
- Managed **cart functionality & global state** using Context API.
- Implemented **secure authentication and user sessions** using Clerk for seamless login/signup flow.
- Designed an engaging, responsive, and accessible **UI/UX with Tailwind CSS**, ensuring cross-device compatibility.
- Followed **best practices** in API handling, performance optimization, and Git version control workflows.

EDUCATION

Indira Gandhi National Open University

Bachelor of Computer Application - 7.31 CGPA

July 2021 - Dec 2024

New Delhi, IN

D.A.V High School, Siwan

Senior Secondary

Feb 2019 - Feb 2021

D.A.V High School, Siwan

Feb 2017 - Feb 2019
